Subs to Sec Jr

In 1895, the Comptroller was asked to submit a statement showing the amount of local cess realized in each Mch during 94-95, and 24p c thereof credited to the Village School Fund.

The purpose for which the information was required is not apparent from anything that is on record, but the draft has been passed by the Ist Councillor

The Comptroller having replied his inability to furnish the information, the Dy Commrs of Schools were next called upon to submit it.

After more than a year's correspondence, the information received is neither complete nor accurate, nor is it of much use seeing that the figures (such as they are) relate to 1894-95.

May the whole thing be filed?

W.G.I. 31.3.1894

In view to ascertain what amount of local cess was being collected in each municipality for the purpose of determining whether 24 per cent of that cess, if made over to the several municipalities would not be sufficient for the maintenance and development of Primary schools, which are now maintained from the Village School Fund, the Dy Com of Dists were requested to submit statements of local cess realized during 1895 96

(2) From the statements received from the Districts general statement showing

Spl No 12113 20 97/5/97

(Sheet 43)

the total cess realized in each Municipality and 24 per cent thereof creditable for to Village school fund has been compiled and submitted herewith, but this office has no information in regard to the cost of Primary schools in each Municipality now maintained from the Village School fund.

Orders are solicited as to whether the Inspector General of Education may be asked to submit a statement furnishing the required information.

(7) The above orders having been communicated in this office vide $\frac{14147}{63\ 74}$ dated 29 April 1898 the Inspector General of Education submits two statements showing the cost of Primary schools or Primary classes of Middle schools in municipalities maintained from State funds and ~~two other showing the cost~~ Village School Fund respectively. From the statements received of which an abstract has been prepared and herewith submitted, it would appear that there is ~~are~~ a single city of Sakrapatna where the cost of Primary school is less than the 24 per cent of the cess credited the Village School fund, while in all the other municipalities except those named in the margin for which revenue from cess is not given the cost of Schools exceeds the amounts credited to the Village School fund as per details given in the accompanying statement of which an abstract

Correspondence ending with letter etc 366/17 dated 11 July 1898 from the Dept of General of Education submitting a statement showing the cost of Primary schools and of Primary classes in Middle schools maintained in the several municipalities in the State both from State funds and the Village School Fund

Grant the letter an Extension without the Statement

Order thereon

The Govt consider that the desirable municipal Boards in the State should be called upon to take as in the Madras Presidency an extensive part in the management of at least Primary schools within

The Govt direct that inclusion of the 5 municipalities noted in the margin, for which the required information has not been furnished, the 24 per cent of the local Cess collected in the remaining 101 municipalities amounts to Rs 14152 – Only 20 schools are maintained exclusively out of the Village School Fund at a cost of Rs 6510 Per annum while

(2) G Order just cited above

In para 1 of this order it was pointed out that out of the 24% of the Local Cess levied in Muni-cipalities, amounting to Rs 14,152, only Rs 6510 is spent on Primary schools leaving a surplus of Rs 76 and the Inspector General of Ed was requested to report "whether the State Funds should not be relieved at least to the extent of this surplus by transferring the maintenance charge of some more of the primary schools in municipal Towns from the State to Village Funds"

The Inspector General reports accordingly in letter No 3942/146 & 11149 and gives his opinion in para 4 of the letter —

'I earnestly deprecate the transfer of the charges of any schools in Taluk stations to the village school Fund as suggested xxx Such a transfer would — permanently impoverish the

Mr W. Bhabha points out that State funds already receive a contribution from Municipal funds to the extent of Rs 14,523 towards the cost of schools and that Govt have ruled that the cost of all schools in Taluq Hqrs should be borne by the State funds the Office has not been able to trace this order a copy may be called for from the Govt. II In para 2 of the same order it was observed —

" In the cities of Bangalore and Mysore all schools for elementary instruction are under the management and control of the Municipal Boards In the Madras Presidency also, the Local Fund and Municipal Boards are entrusted with such management and control It is a matter for consideration, having regard to the fact that proper supervision is as a general rule, quite impossible with the present Educational Inspecting Agency, whether the control of all Primary Schools in Municipal Towns of the State cannot be advantageously transferred to the Municipal Boards subject to such rules as may be prescribed by Govt " The Inspector General of Education and Deputy Commissioners of Districts were requested to favor the Govt with their views on this point as early as possible " They have accordingly given their views which are briefly set forth

Section 6 of the Rules for the Establishment of Local Committees for the Administration of Local Funds in Mysore, lays down that one-fifth i e 20% of the Local Fund/Cesses shall alwa s be assigned to the Education Department for expenditure (on Primary Education) in the Taluks in which the same is levied It was also provided that this proportion allotted for Education was open to being altered at any time b the Chief Commissioner

Accordingly in 1877 the allotment for Fducational purposes was raised to 24% (vide Chief Commissioner's Proceedings o 181 dated 21st January 1877) This allotment forms the present village School Fund together with the 24/per cent of the Cesses levied in Municipalities, and is spent on Village Schools in rural parts

I In 1895 an enquiry was made with a view to ascertain what amount of local cess was collected in each unicipality and whether the 24 per cent of the same, if made over to the several Municipalities, would not be sufficient for the maintenance and development of Primary Schools in Municipal Towns

After

including portion of section VI

Please see page 1 of the printed Memo put up in the other file

Please see papers commencing with serial No. 28 of the open file put up below

After much correspondence the following facts for 1895-96 were brought out -

1 that the contributions of 24 per cent from 101 Municipalities came up to Rs 14152, which was credited to the Village School Fund

2 that out of the said Rs 14152, only 20 schools in Municipal towns were maintained at a cost of Rs 6510 leaving a surplus of Rs 7642, in favor of the Village School Fund,

3 that the remaining 250 schools in Municipal towns were maintained not from the Village School Fund but from the State Fund at a cost of Rs 94,752, per annum.

Vide G O No 3654-62/Ed 92 dated 14th September 1898

The Inspector General of Education was thereupon requested to report whether the State Funds should not be relieved, at least to the extent of the above surplus (Rs 7642), by transferring the maintenance charge of some more of the Primary Schools in Municipal Towns from the State Fund to the Village School Fund

The Inspector General in his reply No 3942/146 dated 11th November 1898 is not in favor of any such transfer and fully explains his reasons therefor

* This letter is now pending orders

The reasons are good I would not press the question of transfer

II The question of transferring the control of Primary Schools in Munici-

pal Towns to the respective Municipal Boards was also raised in the ~~letter~~ order above quoted and the Deputy Commissioner (Presidents of Municipal Boards) and the Inspector General of Education have furnished their views which are briefl as follows -

The Inspec or General would give the Municipal Boards only general supervision over Taluk Schools in the capacit of visitors The Deputy Commissioner of Mysore sees no objection to ex end the power of inspecting Primar Schools to the Local Fund and Municipal Members The Deputy Commissioners of Kolar, Tumkur, and Chitaldrug are likewise against the proposed transfer of control while the Deput Commissioner of Bangalore and Kadur are in favor of it The Deputy Commissioners of Hassan and Shimoga would try the experiment in District Head Quarters The former would also extend it to Holê-Narasipur the next largest town in his district with a local Bar

I would only give the Boards General Supervision - The Strengthening of the Inspection staff proposed by the I.G & supported by me if sanctioned would secure efficient working of all these Schools

Sir,

With reference to Government Order No 5479-87 / 2763-94 dated the 7th November 1895 calling for a statement shewing the local cess collected in each Municipality during the year 1894-95, I have the honor to state that the local cess levied on the Revenue of Kandayam lands situated within Municipal limits is not shown in the accounts separately from that collected on other lands of the Municipal town or village, and that the local cess or Sayer is levied at the place of exportation along with the duty Under such circumstances

it is difficult to calculate the amount of Local Cess collected on Land Revenue and Sayer in each Municipality

2 A statement is herewith submitted showing the Local Cess levied on arrack consumed in the Municipal towns of the District during the year 1894-95

3 As the toddy farms of the Municipal towns are not separately sold, it is not possible to calculate the amount of Local Cess levied thereon

4 The sum of Rupees 7-2-9 shown under 'Miscellaneous' as against the Sira Municipality is the Local Cess levied on the marginally noted demand credited to the Municipality

(1) Sale proceeds of Grass
(2) Sale proceeds of the Municipal garden.
(3) Sale proceeds of Jamboo trees within the Municipal limits

SIR,

With reference to your Docket No $\frac{16646}{27\,63\text{-}94}$ X dated 20th June 1898 and previous correspondence calling for a Statement showing the cost of Primary Schools and Primary classes of Middle Schools in the several Municipalities of the Province I have the honour to submit the accompanying statement furnishing the information called for

2 I beg to state that in the case of independent Primary Schools the full monthly cost is shown, but in the case of Primary classes of Middle Schools the cost of tuition only is shown the pay of Menial servants and Contingent charges which relate to the whole school being left out of calculation. I may further add that in many instances an exact distribution between the

Middle and Primary Departments of even the cost of tuition has not been possible, as the number of teachers is smaller in most cases than that of the classes and the same teachers have to work in both the Departments of a school where the two exist together The cost in such cases is therefore only approximate

3 The statement now submitted includes 20 Anglo-Vernacular and Taluk Branch Schools in Municipalities which are maintained from the Village School Funds, the cost of the Primary classes in them being shown in each case The necessary information regarding indigenous or local schools which may be aided from Municipal Funds by Municipalities is not available in this office No indigenous schools in Municipalities are aided from the Provincial Funds or the Village School Fund Recently a sum of Rs 2400 a year was placed at the disposal of the Mysore Municipality for the encouragement of private Primary schools in Mysore City

Correspondence ending with
letter N 366/17 dated 11 July 189
from the Inspector General of Educatio

Order thereon No Ed 92
Dr 14-9-98

The Government observe that, exclusive of the 5 Municipalities noted in the margin, for which the requisite information has not been furnished, the 24 per Cent of the Local Cess collected in the remaining 101 Municipalities amounts to Rs 14152 Only 20 Schools are maintained exclusively out of the village School Fund at a cost of Rs 654 per annum annum, while the remaining 260 Schools in the Municipalities are maintained out of State Funds at a cost of

Chaapel
Kankanhalli
Doddballapur
Nyasa
Nudgeri

Rs 94,752 per-annum —

It is obvious that, owing to the inadequacy of the Municipal Funds, which should be mainly appropriated to the maintenance and improvement of "Elementary" education, more than 93 per Cent of the cost of Primary Education in Municipal Towns is now borne out of State Funds. Out of the 24 per cent of Local Cess levied in Municipalities, amounting to Rs. 14152, only Rs 6510 is spent on Primary Schools leaving a surplus of Rs 7642, and the Inspector General of Education is requested to report whether the State Funds should not be relieved, at least to the

extent of this surplus, by transferring the maintenance charge of some more of the Primary Schools in Municipal Towns from the State to Village Funds

In the cities of Bangalore and Mysore all Schools for elementary instruction are under the management and control of the Municipal Boards. In the Madras Presidency also, the Local Fund and Municipal Boards are entrusted with such management and control It is a matter for consideration, having regard to the fact that proper supervision is, as a general rule, quite impossible with the present educational

inspecting agency, whether the control of all Primary Schools in Municipal Towns of the State cannot be advantageously transferred to the Municipal Boards subject to such rules as may be presented by Government - The Inspector General of Education and Deputy Commissioners of Districts are requested to favor the Government with their views on this point as early as possible

Correspondence with the Inspector General of Education

With reference to your letter No 1604C—L 1 (3) 94 dated 29th July 1898 forwarding the Inspection Calendar of Primary Schools and previous correspondence regarding the transfer of the Primary Classes of Mulki School in the Canara District to the Municipality I have the honor to submit the accompanying statement showing the information called for

2 I beg to state that in the case of Upper Primary Schools the full monthly cost to Government of Primary Classes of Middle Schools is only charged against the Municipality in order to encourage them to open and keep up Middle Schools It is not clear what is meant by the Department when it says that it is not possible to retain the small grant made to Mulki Schools for the Primary Classes while the two extra teachers sanctioned for the Middle School are withdrawn

3 The statement submitted shows 20 Anglo Vernacular and Taluk Branch School Municipalities in which the Village School Fund is the source to the Primary Class charges have been shown Inquiries from the Deputy Commissioners regarding the actual local sources from which Municipalities obtain funds for the Primary Schools within their limits have elicited the following information

1 Chickballapur	Municipal Fund
2 Kankanhalli	Municipal Fund
3 Doddaballapur	Municipal Fund
4 Mysore	Municipal Fund
5 Mudigere	Municipal Fund

The Municipalities have been requested to furnish the information required in the Government Order

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

~~Bangalore~~ Bangalore 11 November 1898

From

H J BHABHA Esq,

Inspector General of Education in Mysore

To

The Secretary to the Government of Mysore
in the General and Revenue Depts
Bangalore

Sir

With reference to Order No 3654-62-
printed Copy pontuf Ed 92 dated 14th September 1898 stating
that 24 per cent of the Local Cess collect
ed in Municipal towns and paid into the
Village School Fund amounts to Rs 14,152
whereas only 20 schools in municipal
towns costing Rs 6,510 per annum are
maintained from the Village School
Fund, the balance Rs 7,642 being
spent on Schools outside the limits
of municipalities, I have the honour
to inform you that with a view to
relieve the Village School Fund of the
cost of maintaining schools in Taluk
Headquarters which are all municipal

towns and to set free more funds for
Village Schools the Mysore Government
with their usual liberality in educa-
tional expenditure ruled in 1888-89* that the cost of all schools in Taluk Headquarters should be borne by the State Funds One of the effects of this ruling was that about Rs 7642 collected as Local Cess within the municipal limits of Taluk Headquarters was merged in the Village School Fund and went towards the support of Village Schools outside municipal limits - This amount may be considered as a grant in aid of the Village School Fund from the State Funds, and in that light the merging of the amount in the Village School Fund is not only justifiable but praiseworthy In fact the relief afforded to the Village School Fund by transferring the cost of schools in Taluk Headquarters to the State Funds was in itself a liberal grant from the State Funds given in aid of the Village School Fund -

* cannot be traced. A copy of the order may be called for from the Chief Commissioner of Coorg from the E.S.O. No 12 d. 13/57.

2 There are very few primary schools at Taluk Stations and most of them are subsidiary schools or branches to the chief Taluk School which in almost every case is a Middle School The present clear definition of the limits within which the State Funds or the Village School Fund should be spent is so useful and explicit, that I should be sorry to see any exception to the present rules recognised by the transfer of the charges of a few schools in Taluk Stations to the Village School Fund, as such exceptions would introduce a serious element of confusion into our accounts, which is likely to prove inconvenient alike to the Government the Comptroller and the Department.

3 Government have ascertained that the cost of 250 schools in Taluk Stations is Rs 94,752 This expenditure is borne primarily by the State Funds, which however receive grants from Municipal Funds to the extent of Rs 12,082 by

95

Order Camp No 11-20-2.7 116-93 dated 12th October 1894 and of Rs 2441 by Order C No 309-25 dated 2nd March 1894, the net cost to the State Funds being Rs 80,22 Government evidently think that the municipalities in Taluk Stations are not able to bear the whole cost of these schools and have therefore been content with a grant from the municipalities of Rs 14,523 only. And evidently Government have waived their claim to the Local Cess collected within the municipal limits of Taluk Stations amounting to Rs 7642 This amount merged in the Village School Fund and spent on Village schools outside the municipal limits of Taluk Stations is in effect as shown in para 1 of this letter a grant from the State Funds to the Village School Fund.

4 Under these circumstances I earnestly deprecate the transfer of the charges of any schools in Taluk Stations to the Village School Fund as suggested in Order No 3654-62-Ed 92 dated 14th September 1898. Such a transfer would permanently impoverish the Village School Fund and be contrary to the long established policy

of Government to encourage as much as possible the primary education of the masses Any funds however large that Government are pleased to spare for this Kind of education would be insuffecient for the needs of the popula tion That there have been savings in recent years from the amount allotted to the Village School Fund is due to several causes which I need not mention here, but is certainly not due to any diffeculty in estending primary education among the masses, only about 26 16 per cent of boys of school-going age being at school at present

5 With reference to para 2 of the same Order I submit that the control exer-cised by the Inspecting Staff over all Taluk Schools is effecient and real, and will become still more so if Circle In-spectors whose appointment I have more than once recommended are appointed and the help of more Assistant Deputy Inspectors is given to the Deputy Inspectors when the number of village schools under the control of the latter becomes too large There does not seem to be any need to supplement such control by placing the schools

under the control of the Municipal Boards. My experience of the management by Municipal Boards of English Schools in Taluk Stations which were abolished by Order C No 309-25 dated 2nd March 1894, and perusal of the interest taken by the Girls' School Committees in their work gives me no hope that the control of the schools by Municipal Boards to the cost of which they contribute but a very small portion will be conducive to the efficiency and progress of the schools. If the Municipal Boards as in Bangalore and Mysore were to supply the whole cost of the schools it would be justifiable to give the management and control of the schools to the Boards, if not for any other reason, at least for the purpose of inducing the habits and encouraging the growth of self government. I would under these circumstances give the Municipal Boards in Taluk Stations the same kind of general supervision in the capacity of Visitors over Taluk schools as has been given to Revenue and Judicial officers over village schools by Order C No 178-96 dated 24th January 1894

of Government Proceedings No 3654-62 / ED 92

the honor to state that it is idle
to expect the Municipal Commissioners,
by themselves, to take an active
interest in the working of the
Primary Schools in Municipal
towns. The control of these schools

is best vested as at present in the Educational Department and the cost debited to the 24 Per Cent of the Local Cess collected in the Municipalities concerned, which is set apart to form the Village School Fund There are 16 Municipal Towns in this District and the supervision of the small number of Primary Schools in them is I believe not too heavy a task for the present Educational Inspecting agency.

Sir,

With reference to para 2 of G O No 3654-62 / Ed 92 dated 14th September 1898, regarding the transfer of all Primary schools to the control of Municipal Boards in Municipal towns, I have the honor to state that the Revenue officers, owing to their multifarious duties and also in many cases to want of interest in matters Educational or time, do not quite fulfil the expectations of Government (as contemplated in C O No 178 / 96 (Educational) dated the 24th January 1894) in the spread and improvement of Education by co-operating with the Inspecting officers of the Educational department. Even the

Members

members of the Village school Committee have not been showing sufficient interest in the management of village schools It would not be surprising therefore if the Municipal Boards of the minor Municipalities do not evince the zeal necessary for the control of the Primary schools when entrusted with their management and supervision nor to find them on enquiry to possess the requisite qualifications to undertake the duty Their interference would therefore impede rather than facilitate the spread of primary Education But I have no objection to include the Municipal and Local Fund Board members in the list of persons qualified to inspect the Primary schools and report the result to the Educational officers This will afford a wholesome check on the irregularities of the Masters of the Primary schools

104

On the whole, I am of opinion that the management of the Primary schools should not be entirely removed from the control of the Educational agency till the minor Municipal Boards show sufficient competency for the same -

Sir,

With reference to para 2 of the Government Proceedings No. 3654-62 Rd 92 Dated 14th September last, calling for my opinion in regard to the desirability or otherwise of the transfer of the control of all Primary Schools in the Municipal Towns to the Municipal Boards I have the honor to state that I am in favor of the proposed transfer with certain reservations

2 —— The subject of primary Education, it is needless to say is one of the greatest importance and

and in my opinion nothing will
be better calculated to create in the
minds of the ordinary run of Muni
cipal members a zeal for the ad-
vancement than the idea of enabling
them to come in direct and free
-quent contact with the same by
affording to them a fair share in
the management and control of
the primary Schools It seems to
me to be a question however
whether the analogy of the like mode
of supervision already obtaining in
the Madras Presidency can be
readily extended to all our moffusil
Municipal Boards in their present
state of culture and enlightenment
though doubtless it may be argued
that one cannot learn unless
one is put to learn At all events

I

I am of opinion that the Munn
cipal Boards of all the Distrect
Capitals may be entrusted with
the management and in such
cases, I would suggest to the
Kind Consideration of Govern
-ment the desirability of nominating
the Head masters of the High
Schools as Ex Officio members of
the Boards as their Counsels and
Cooperation in matters educational
will necessarily be of great value -

As far as this District is con
-cerned I might also add the name
of Hole Narsipur — a Town next to
Hassan in extent, population and
importance where some of the
members of the Local Bar can be
expected to exert an intelligent
influence in the cause of primary
Education

Education and beyond that,
I am of opinion that it is
undesirable to extend the privi-
lege for the present —

the Municipal Boards in this District 9
have unanimously resolved that if the

greatly conduce to their efficiency

It will be observed from the following
figures for 1897 98 that in this District
there are 59 schools maintained at a cost
of Rs 7403-13-10 from the 2 4/5 of one anna
cess on the Land Revenue of Rs 13,870-11-

3 In addition to the above, the below mentioned Municipalities have paid to Government an annual contribution of Rs 439/- towards the maintenance of the English Schools established in those places, and no information as to the "educational progress, Etc," made in them has ever been furnished to the District Office

No 813/73 Office of the president of the Municipalities, Shimoga District
Dated 23d April 1899

To
The Secretary to the Government of Mysore
General and Revenue Departments

Sir.

With reference to Government proceedings No 3654-62/Ed 92 dated 14th September 1898, calling for opinion as to whether the control of primary schools in municipal towns may not be entrusted to municipal Boards, I have the honour to state that such transfer of control in all the towns in this District except Shimoga, virtually means its transfer to the Amildar or other Revenue and in some cases (medical) official of the place As far as I can see, most of these men have not sufficient time, inclination or ability to carry out this work satisfactorily The interest evinced in this branch of work is likely to be fitful, unsystematic and amateurish

2 If it is ruled for example that the establishment should be under the municipality, while the inspection is under the educational Department, this may not work so smoothly as under a single system of control

3 In my opinion, the present system

the best suited for the benefit of education
It is only where a municipality is large
enough to employ a proper agency for
supervision that it may be entrusted with
the management The only place in this
District where perhaps this system may be
tried is Shemoga, except that if additional
funds are required, the municipality is
unable to bear the charge If Government
should resolve to introduce the system
into such places. I shall lay the matter
before the Board and submit a report
again after receiving the opinion of that
body
